Plated and moulded pump options

HZ-F32-120MLA / 120 mL · Plated pump

Open source photo

Product photograph from the supplied specification list

Series reference photo. Match the selected configuration to a sample.

Selection reference	HZ-F32-120MLA
Requested option	120 mL · Plated pump
Measurement basis	The volume identifies the listed mating bottle. Confirm the neck drawing and pump output separately.
Listed fitting	Plated pump

To confirm with the supplier

- Match the neck drawing and dip tube length to the intended bottle.
- Confirm output per stroke and priming with the intended formula.

When requesting a quotation

Specify quantity by size, finish, preferred currency, delivery rule and named place. Ask for MOQ, sample and tooling fees, carton details and lead time.
