520 black-cap square series

HZ-520-050G / 50 g

Open source photo

Sample photograph provided by the client

Photograph of this series. Match the selected option against a physical sample.

Three tall bottles and two low jars pair clear, bevelled bodies with black caps and slim gold-coloured bands.

Selection reference	HZ-520-050G
Requested option	50 g
Measurement basis	Listed jar size in grams. Actual fill depends on formula density and headspace.
Listed fitting	Pull-tab liner

To confirm with the supplier

- Confirm the width, height, corner radius and decoration area against the drawing for this size.
- Confirm the liner and lid fit, fill weight and headspace with the intended formula. Quote the jar insert separately from the bottle insert.

When requesting a quotation

Specify quantity by size, finish, preferred currency, delivery rule and named place. Ask for MOQ, sample and tooling fees, carton details and lead time.
