Size 24 pump with clear hood

HZ-F31-100ML / 100 mL

Open source photo

Product photograph from the supplied specification list

Series reference photo. Match the selected configuration to a sample.

Selection reference	HZ-F31-100ML
Requested option	100 mL
Measurement basis	The volume identifies the listed mating bottle. Confirm the neck drawing and pump output separately.
Listed fitting	Plated pump with clear hood
Neck designation	Size 24 (thread drawing to confirm)

To confirm with the supplier

- Match the neck drawing and dip tube length to the intended bottle.
- Confirm output per stroke and priming with the intended formula.

When requesting a quotation

Specify quantity by size, finish, preferred currency, delivery rule and named place. Ask for MOQ, sample and tooling fees, carton details and lead time.
