Series appearance reference

The group view shows the colour and shape of the series. Confirm the selected size, material and finish on a physical sample.

A curved detail runs across the champagne-tone caps and picks up the green of the matching bottles and jar. Choose the 50 g jar or a 40, 100 or 120 mL bottle for sampling.

Selection reference	HZ-JA-050G
Requested option	50 g
Measurement basis	Listed jar size in grams. Actual fill depends on formula density and headspace.

To confirm with the supplier

- Request the jar and lid drawing with opening diameter, thread, tolerances and liner details.
- Confirm the stated fill weight with the intended formula, headspace and a filled closure test.

When requesting a quotation

Specify quantity by size, finish, preferred currency, delivery rule and named place. Ask for MOQ, sample and tooling fees, carton details and lead time.
